PLINY'S PANEGYRIC

A Workshop

The hyperbolic rhetoric of Pliny's *Panegyric* combines sharp political analysis with shrewd psychological insight. This fascinating prototype of *specula principum* across the centuries has received considerable attention over the past two decades, and the second Cortona Colloquium on Latin Literature will offer the opportunity for a comprehensive reassessment of its structure, style and ideology. As in the inaugural edition of the Colloquium in 2016, each speaker will be responsible for introducing a section of the text, and all participants will join in the discussion, which will be at the heart of the event.
