

Call for the allocation of funding for Third Mission and Public Engagement activities carried out by students of the Scuola Normale Superiore

Art. 1 - Subject

A call is hereby announced for Third Mission activities (production of public goods and Public Engagements), to be carried out by the students of the Scuola Normale Superiore by 10th December 2022.

Art. 2 - Premises

On several occasions, students of the SNS have pointed out the need for the SNS to allow for greater openness to experiences parallel to scientific and academic ones, and to direct interventions by the student component outside the confines of the SNS. In effect, in recent years a considerable number of the SNS Third Mission initiatives have been conceived, promoted and in some cases carried out directly and spontaneously by its students. These are original Public Engagement initiatives on the Italian scene and beyond, involving local and national partners, that enhance the impact of the SNS on the territory by generating social innovation through culture, and increase awareness of the SNS and its structures.

For these reasons, and in continuation of the commitment undertaken with the 2019-2020 three-year programme, the SNS has initiated a formal promotion of student-led Third Mission projects, starting with the establishment of the Students' Working Group for the Third Mission. The objectives of the promotion of student-led Third Mission projects are: the design of innovative strategies for the production of public goods; the enhancement of empowered peer education tools, with a view to the acquisition of transversal skills and the promotion of psychological well-being in general; the strengthening of career choice and placement orientation initiatives.

With the aim of increasing sharing, participation and transparency in decision-making processes regarding the funding, design and organization of Third Mission activities, the Third Mission Commission, the Students' Working Group for the Third Mission, the Cultural Events and Career Services (SEC), the Events and Management Service of the Polo (SGF) and the Communications Office (UCO) are announcing a call for Public Engagement activities curated by the students of the SNS for the year 202, assigning institutional support and, where necessary and within the limits of the available budget, financial support for innovative initiatives conceived and designed by students of the SNS in the context of the Third Mission and Public Engagement.
