

You are about to receive an income (integration to Erasmus + Scholarship) which for fiscal purposes will be taxed in accordance **with art. 50 c.1, letter c) of the TUIR (the Italian Tax Code)**.

You will be sent the form for deductions for the fiscal year 2024 and subsequent years.

This self-declaration is needed for the administration to be able to calculate the tax rate applicable to the Erasmus + integration that you will receive.

If you **do not have an income in addition to** the PhD scholarship of the Scuola Normale, you **do not** need to indicate any other income in the section:

I HEREBY DECLARE

- my municipality of residence as of 01.01.2024 is
(state if different from that above).

- my estimated total income for the year 2024 will be the following:

- Consider only this income as an employee**
- €..... to be added to the income as an employee (DERIVING FROM OTHER WORK RELATIONSHIPS AS AN EMPLOYEE OR ASSIMILATED. THE PhD GRANT IS NOT A SOURCE OF TAXABLE INCOME).

- I request the application of the highest bracket in order to avoid an excessive rate at tax adjustment, in the measure of _% (ONLY IN THE CASE OF INCOME FROM OTHER EMPLOYERS)

In addition, you do not need to request the application of a higher tax bracket, but the income received for the Erasmus + integration will be processed in compliance with prevailing legislation.

Hence, please tick only the box

CONSIDER ONLY THE INCOME FROM WORK AS EMPLOYEE

In addition, in the case described, we advise the application of IRPEF (personal income tax) personal deductions (art 13 TUIR). Tick yes:

IRPEF Personal deductions (art. 13 of the TUIR) that lower the IRPEF bracket

YES **NO DEDUCTIONS FOR WORK AS EMPLOYEE OR ASSIMILATED (tick the box)**

If you tick **YES**, the deductions will be applied in the payslip
If you tick **NO**, the deductions will **NOT** be applied in the payslip

The deductions for work as employee reduce the taxes due, calculated on the Erasmus + integration

If you **have an income in addition** to the PhD scholarship of the Scuola Normale, you will need to indicate the presumed/estimated sum in the section:

I HEREBY DECLARE

- my municipality of residence as of 01.01.2024 is
(state if different from that above).

- my estimated total income for the year 2024 will be the following:

- Consider only this income as an employee**
- €..... to be added to the income as an employee (DERIVING FROM OTHER WORK RELATIONSHIPS AS AN EMPLOYEE OR ASSIMILATED. THE PhD GRANT IS NOT A SOURCE OF TAXABLE INCOME).

- I request the application of the highest bracket in order to avoid an excessive rate at tax adjustment, in the measure of _% (ONLY IN THE CASE OF INCOME FROM OTHER EMPLOYERS)
