What is innovation4change?

Leveraging the potential of highly skilled young talents to solve global issues

A **collaborative innovation program** that enables **institutions**, multidisciplinary postgraduate **talents**, and diverse **stakeholders** to work towards a **shared objective** of building a **sustainable future** for **Europe** through developing **disruptive** solutions for **ESG-related challenges**.

Mission

Educate to conceptualize and to **develop early-stage solutions** that resolve a problem connected to **SDGs** while creating a **sustainable business**

Drivers

Impact on society

Market attractiveness

Innovativity of the solution

We are looking for you!

Your expertise to enrich the program and to foster collaboration

Are you a PhD student looking to tackle the challenges of tomorrow?

innovation4change is the opportunity for you to work on **global sustainability challenges** in small teams together with our MBA fellows.

We will select **3 PhD students** for the next edition of i4c starting in **March 2027** that will take place in **Turin (3 weeks)** and **online**.

What is in for you?

You will gain insights into the agile process of **disruptive innovation** and learn about **design thinking** to generate new ideas and approaches to challenging problems.

You will have the opportunity to **exchange** with an **international group of MBA fellows** and attend lectures and workshops from renowned innovation experts.

You will participate in **10 weeks of collaborative teamwork** starting from research, to ideation, validation, to execution of new solutions to the challenges that are posed by companies and institutions.

At the end of this process, you will present your solutions to a diversified audience at our **Demo Day.**

What are you waiting for?

You are motivated, creative, and love to find new, disruptive solutions to complex problems?

Apply to our Call for Applications for innovation4change 2027 by filling out the following form

i4c Application form (click here)

The deadline is the **5th of December, 2027.**
